Short Info

I am a creative and skilled front-end developer. I also have a lot of experience as a graphic designer.

First of all, I specialize in designing for the Internet. I am an expert in HTML and CSS, including the web accessibility and cross-browser issues on displaying content in different browsers. I'm also reliable in JS coding.

I am a true UI geek... 🤪

Compatible With

```
#include <professional_experience>

struct ("Gaming Innovation Group Spain SL - Senior UI Developer") :: [06/2016 - ongoing] {
    /*
        User interfaces development for web applications mostly with Vue.js and Web Components
        according to the company's Design Systems, Style Guides and UX specifications. Refining
        and improving the company's guidelines in UI development process.
    */
}

struct ("Mavrix Technologies SL (BetIt Group Ltd.) - Senior UI Developer") :: [08/2014 - 06/2016] {
    /*
        User interfaces development for various products according to the company guidelines and
        UX specifications. Helping refine and improve the company's guidelines along with
        investigating tools useful in UI development process.
    */
}

struct ("Infusion Development Poland Sp. z o.o. - Technical Designer") :: [04/2013 - 07/2014] {
    /*
        Front-end development for Infusion projects. Preparation of semantically valid HTML, CSS
        and JavaScript code in compliance with W3C standards for web projects and XAML code for
        WPF (Windows Presentation Foundation) and Windows 8 applications. Preparation of graphic
        assets for native mobile applications on iOS and Android platform.
    */
}

struct ("SmartRecruiters Inc. - Front-End Developer, Team Leader") :: [04/2012 - 03/2013] {
    /*
        Preparing HTML, CSS and JavaScript code for SmartRecruiters ATS based on a visual
        mockups and functional wireframes. Substantive evangelism of front-end development team
        as well as other collaborating teams. Quality control of the code produced in
        subordinate team.
    */
}

struct ("SmartRecruiters Inc. - UI Designer and CSS Specialist") :: [09/2010 - 03/2012] {
    /*
        Graphic and functional design of user interfaces with the principles of usability and
        accessibility for SmartRecruiters ATS. Preparation of a semantically correct HTML, CSS
        and JavaScript code. Maintaining corporate website which includes preparing the page in
        template-based layout for WordPress as well as the production of Adobe Flash components
        with supplied materials.
    */
}

struct ("Mobiteam Sp. z o.o. - Senior Graphic Designer") :: [01/2010 - 08/2010] {
    /*
        Continuing cooperation with Mobiteam - a comprehensive range of graphic design:
        corporate identity, graphic design, web design, print design, UI design for mobile games
        and applications, TV broadcast production. Preparation of website templates in HTML, CSS
        and Adobe Flash.
    */
}

struct ("Mobiteam Sp. z o.o. - Web/Graphic Designer, TV Broadcast Producer") :: [06/2005 - 12/2009] {
    /*
        The position occupied by me in Mobiteam included a comprehensive graphic design from
        corporate identity through the websites and Internet portals, paper advertisements, user
        interfaces of mobile games and applications, design of TV shows and commercials. I was
        also responsible for the preparation of website templates in HTML, CSS and Adobe Flash
        based on graphic designs. In Mobiteam I also dealt with the video editing, quality
        control and close cooperation in creating TV shows and commercials broadcast in
        televisions such as: TVN, TVN Turbo, MTV, 4fun.tv, Viva, Mango. I was managing projects,
        which included the implementation of new TV shows from a scratch in TV stations: OTV
        (Croatia), RiTv (Croatia), DSF (Germany), ForbiddenTV (Germany).
    */
}
